Summary

With 7 years of experience in website development and design, I specialize in building responsive, user friendly, and visually polished websites tailored to each client's business needs. My expertise includes WordPress development, custom website design, Elementor, custom CSS, plugin integration, website maintenance, debugging, performance optimization, and SEO best practices. For over a year, I have worked as a WordPress Developer at MindShift Studios, where I design and develop fully customized WordPress websites, create responsive layouts, perform custom coding, and integrate the right tools and plugins to deliver functional and professional results. Throughout my professional journey, I have also strengthened my skills in project management, time management, communication, and team collaboration. I am committed to delivering websites that are not only visually appealing but also reliable, optimized, and built to support real business goals.

Experience

MindShift Studios
